

HEALTHCARE

Scope of services

Trends in Hospital Projects

- **Hospital specialization** for excellent service.
- **Quality and comfort** through durable finishes and hotel-like rooms.
- **Acoustic conditioning:** common areas and rooms.
- **Fire safety,** prioritizing compartmentalization over evacuation.
- **Redundancy** in energy and data systems.
- **Energy efficiency** through multiple strategies.
- **Environmental sustainability,** possible external certification.
- **Smart hospital,** adding technology to improve building operation.

Why JG

Experience
+400

Hospital projects developed in 20 countries since 1974.

Innovation

Specialized technical publications.
